(1) A non-GAAP measure. Please see the table in the Non-GAAP Financial Measures section for a reconciliation to the most comparable GAAP measure.

(2) Refers to net income attributable to Smithfield, adjusted net income attributable to Smithfield and adjusted net income attributable to Smithfield per diluted common share.

CEO Perspective

"We delivered record first half operating and adjusted operating profit despite a challenging external environment, demonstrating the strength of our vertically integrated business model, the power of our brands and our team's disciplined execution," said Smithfield President and CEO Shane Smith. "Our results reflect solid performance across the business, continued market share gains in key branded categories and strong operating cash flow generation."

Smith added, "While our updated outlook reflects ongoing macroeconomic pressures, these external factors do not change our strategic priorities or our confidence in the business. Supported by a strong balance sheet, substantial liquidity and a clear action plan, we remain focused on driving operational efficiencies, investing in our brands and creating long-term shareholder value."

Financial Position

As of June 28, 2026, we had $3,648 million of available liquidity consisting of $1,350 million in cash and cash equivalents and $2,298 million of availability under our committed credit facilities. We ended the quarter with a ratio of net debt to adjusted EBITDA[(1)] on a trailing twelve months basis of 0.4x.

(1) A non-GAAP measure. Please see the table in the Non-GAAP Financial Measures section for a reconciliation to the most comparable GAAP measure.

Dividend Update

On July 30, 2026, our Board declared a quarterly cash dividend of $0.3125 per share of common stock, which will be paid on August 27, 2026, to shareholders of record as of August 13, 2026. We anticipate the remaining quarterly dividends in fiscal year 2026 will be unchanged, resulting in an annual dividend rate of $1.25 per share. The declaration of dividends is subject to the discretion of our Board and depends on various factors, including our net income, financial condition, cash requirements, business prospects, and other factors that our Board deems relevant to its analysis and decision making.

FY 2026 Outlook

As we look to the remainder of 2026, our revised outlook takes into account current macroeconomic challenges including cautious consumer spending and higher input costs.

While our team delivered record first half results and has a clear action plan to manage through this environment, we believe it is prudent to update our fiscal 2026 adjusted operating profit outlook to reflect these macroeconomic headwinds.

The Company is updating its financial outlook as follows:

- Total Company sales to be roughly flat compared to fiscal year 2025 (previously up low-single-digits).
- Packaged Meats segment adjusted operating profit of between $1,075 million to $1,150 million (previously $1,100 million to $1,200 million).
- Fresh Pork segment adjusted operating profit of between $180 million to $240 million (previously $200 million to $260 million).
- Hog Production segment adjusted operating profit of between $75 million to $125 million (previously $150 million to $200 million).
- Total Company adjusted operating profit of between $1,225 million to $1,375 million (previously $1,325 million to $1,475 million).
- Capital expenditures of between $350 million to $450 million. Capital expenditures include investments in profit improvement projects as well as projects for maintenance and repair (unchanged).
- An effective tax rate of between 22.5% and 24.5% (unchanged).

The Company's outlook for 2026 includes 53 weeks of results. The outlook excludes the impact of the proposed Nathan's Famous acquisition and investment in the new processing facility in Sioux Falls, South Dakota.

Non-GAAP Financial Measures

This press release includes certain financial information that is not presented in accordance with generally accepted accounting principles in the United States ("GAAP"), including (1) adjusted net income attributable to Smithfield, (2) adjusted net income per diluted common share attributable to Smithfield, (3) EBITDA, (4) adjusted EBITDA, (5) adjusted EBITDA margin, (6) adjusted operating profit, (7) adjusted operating profit margin, (8) net debt and (9) ratio of net debt to adjusted EBITDA. We refer to these measures as "non-GAAP" financial measures.

(1) Adjusted net income attributable to Smithfield is defined as net income, excluding the effects of transactions or events that are not part of our core business activities or are unusual in nature (whether gains or losses) and the tax effects of the foregoing items. We believe that adjusted net income attributable to Smithfield is a useful measure because it excludes the effects of items that are unusual in nature, infrequent in occurrence or otherwise stem from strategic decisions to restructure our operations. (2) Adjusted net income per diluted common share attributable to Smithfield is defined as adjusted net income attributable to Smithfield divided by diluted weighted average shares outstanding. (3) EBITDA is defined as earnings before interest, taxes, depreciation and amortization. We believe that EBITDA is a useful measure because it excludes the effects of financing and investing activities by eliminating interest and depreciation costs to provide a comparable year-over-year analysis. (4) Adjusted EBITDA is defined as EBITDA further adjusted for the effects of items that are unusual in nature, infrequent in occurrence or otherwise stem from strategic decisions to restructure our operations. We believe that adjusted EBITDA is a useful measure because it excludes the effects of items that are unusual in nature, infrequent in occurrence or otherwise stem from strategic decisions to restructure our operations. (5) Adjusted EBITDA margin is defined as adjusted EBITDA divided by total sales. We believe that adjusted EBITDA margin is a useful measure because it evaluates overall operating performance, ability to pursue and service possible debt opportunities and possible future investment opportunities. (6) Adjusted operating profit is defined as operating profit, excluding the effects of items that are unusual in nature, infrequent in

occurrence or otherwise stem from strategic decisions to restructure our operations. (7) Adjusted operating profit margin is adjusted operating profit expressed as a percentage of sales. We believe that adjusted net income per diluted common share attributable to Smithfield, adjusted operating profit and adjusted operating profit margin provide a better understanding of underlying operating results and trends of established, ongoing operations of our business. (8) Net debt is defined as long-term debt and finance lease obligations, including the current portion, minus cash and cash equivalents. We believe that net debt is a useful measure because it helps to give investors a clear understanding of our financial position and is also used to calculate certain leverage ratios. (9) Ratio of net debt to adjusted EBITDA is defined as net debt divided by adjusted EBITDA. We believe that ratio of net debt to adjusted EBITDA is a useful measure because it monitors the sustainability of our debt levels and our ability to take on additional debt against adjusted EBITDA, which is used as an operating performance measure.

Although these non-GAAP measures are frequently used by investors and securities analysts in their evaluations of companies in industries similar to ours, these non-GAAP measures have limitations as analytical tools, are not measurements of our performance under GAAP and should not be considered as alternatives to operating profit, net income or any other performance measures derived in accordance with GAAP and should not be used by investors or other users of our financial statements in isolation for formulating decisions, as such non-GAAP measures exclude a number of important cash and non-cash charges.

You should be aware that our presentation of these and other non-GAAP financial measures in this press release may not be comparable to similarly titled measures used by other companies. A reconciliation of each of these non-GAAP measures to its most directly comparable financial measure calculated in accordance with GAAP is provided in this release.

The Company's outlook for fiscal year 2026 includes adjusted operating profit and adjusted segment operating profit. The Company is not able to reconcile its fiscal year 2026 projected adjusted results to its fiscal year 2026 projected GAAP results because certain information necessary to calculate such measures on a GAAP basis is unavailable or dependent on the timing of future events outside of our control. Therefore, because of the uncertainty and variability of the nature of and the amount of any potential applicable future adjustments, which could be significant, the Company is unable to provide a reconciliation for these forward-looking non-GAAP measures without unreasonable effort.

Forward-Looking Statements

This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical facts contained in this press release, including statements regarding our strategy, future financial condition, future operations, projected costs, prospects, plans, objectives of management, and expected market growth, are forward-looking statements. In some cases, you can identify forward-looking statements because they contain words such as "may," "will," "shall," "should," "expects," "plans," "anticipates," "intends," "projects," "contemplates," "believes," or "estimates" or other similar terms or expressions that concern our expectations, strategy, plans, or intentions. Specific forward-looking statements in this press release include our financial outlook for 2026, our ability to drive growth over the long term, our ability to complete the acquisition of Nathan's Famous, and the anticipated dividend payments of $1.25 per share in 2026.

We have based the forward-looking statements contained in this press release primarily on our current expectations, estimates, forecasts and projections about future events and trends that we believe may affect our business, results of operations, financial condition and prospects. Although we believe that we have a reasonable basis for each forward-looking statement contained in this press release, the results,

events and circumstances reflected in the forward-looking statements may not be achieved or occur, and actual results, events or circumstances could differ materially from those described in the forward-looking statements. We undertake no duty to update any statement made in this press release in light of new information or future events.

The forward-looking statements contained in this press release are subject to substantial risks and uncertainties that could affect our current expectations and our actual results, including, among others: (1) the cyclical nature of our operations and fluctuations in commodity prices; (2) our dependence on third-party suppliers; (3) our ability to execute on our strategy to optimize the size of our hog production operations; (4) our ability to navigate geopolitical risks including increased tariffs on our exports, (5) our ability to mitigate higher input costs through productivity improvements in our operations, procurement strategies and the use of derivative instruments; (6) our ability to compete successfully in the food industry; (7) our ability to anticipate and meet consumer trends and interests through product innovation; (8) compliance with laws and regulations, including environmental, cybersecurity and tax laws and regulations in the United States and Mexico; (9) our ability to defend litigation brought against us and the sufficiency of our accruals for related contingent losses; (10) our ability to prevent cyberattacks, security breaches or other disruptions of our information technology systems; (11) future investments in our business, our anticipated capital expenditures and our estimates regarding our capital requirements; (12) our dividend policy and our ability to pay dividends; and (13) our status as a "controlled company" and any resulting potential conflicts of interest. A detailed discussion of these factors and other risks that affect our business is contained in our SEC filings, including our reports on Form 10-K and Form 10-Q, particularly under the heading "Risk Factors." Copies of these filings are available online from the SEC or by contacting Smithfield's Investor Relations Department at ir@smithfield.com or by clicking on SEC Filings on the Smithfield Investor Relations website at investors.smithfieldfoods.com.
